The minimum number of shares that must be presented for redemption must be at least 25% of the holder's commons shares. For all Companies other than Lightstone Value Plus REIT V, if the redemption is being requested (1) on behalf of a deceased stockholder or by a stockholder with a qualifying disability or who is confined to a long-term care facility and the request is made within the required timeframe of date of death or disability, or (2) by an Investor due to other exigent circumstances, such as bankruptcy or a mandatory distribution requirement under such stockholder's IRA, a minimum of 10% of the holder's shares may be presented for redemption; provided, however, that any future redemption request by the Investor must present for redemption at least 25% of the Investor's remaining shares.

We will treat a redemption request that would cause an account to hold less than 200 shares as a request to redeem all of the shares, and the Company will vary from pro rata treatment of redemptions as necessary to avoid having accounts holding less than 200 shares.
